Over 100 years of excellence

November 30, 2002

Ittehad Steel
417, Industrial Area
Sector I-9
Islamabad, Pakistan

Mr. Shaban Khalid:

This is to confirm the selection of Ittehad Steel as the main source of reinforcement steel supply, of ASTM A-615 Grade 60 steel standard, for the upgrade project of the Embassy Compound of the United States of America. Perini Corporation has independently tested rebar samples from Ittehad Steel for chemical composition, tensile strength and conformance to the ASTM A615-01 requirements. A copy of the test data is enclosed, Encl-1 and Encl-2. We are glad to confirm that our tests and investigations have concluded that the quality control program of this vendor produces consistent quality conforming to the applicable ASTM standards.

Best regards,

Micah Conrad
Perini Corporation
QA/QC Manager
