TO WHOM IT MAY CONCERN

This is to confirm that **ITTEHAD STEEL** has been our source of Reinforcement Steel Bars for both Grade 40 and Grade 60, conforming to the specification and requirements of ASTM A615. Their steel has been tested and been found fit for use in various structures. We have used the steel at our following projects.

1. Construction of RCC AYUB BRIDGE (Kanju Bridge), over River Swat at Mingora Distt Swat KPK.
2. Construction of RCC KUND BANNA BRIDGE, over Indus River at Besham Distt: Battagram KPK.
3. Construction of Bacha Khan Flyover on N-45, Nowshera Mardan Road & Wali Khan Flyover on Charsadda – Mardan Road, District Mardan KPK.
4. Construction of 4 Nos. RCC Bridges in Km-19, km-21, km-25 & Km-26 on Bannu Miranshah Road F.R Bannu KPK.
5. Construction of RCC Bridge over Indus River from KKH to Seo Valley Villages at Dasu.

They have supplied us quality bars of upto 40 mm Dia, which has helped us in the success of our projects.

We can recommend the services and steel from **ITTEHAD STEEL** for use at any nature of Project.
